How Cool Is School? Every year, we ask our patients to write letters of gratitude about their favorite mentor and what makes him or her so special. We then go through the entries and pick out 2 lucky winners and they will receive a prize along with the two mentors they wrote about! We do this to give back to the community and recognize all the hard-working teachers and mentors we trust our children with on a weekly basis.

I can't say enough good things. Our oldest child has some alignment issues and our dentist predicted a need for intervention. Our first visit included photos, X-rays and analysis. No treatment plan was recommended at that time, but a follow up was scheduled for a year later. We were charged nothing for this appointment. The following year we had two kids go through the same process and still no treatment was recommended and no payment was collected. The following year we had 3 kids complete that process, and again no treatment and no charges. Finally after 4 sets of photos, X-rays, and analysis, my first child was ready for treatment to begin. He just had his braces placed today. The staff were amazing and it was a positive experience. I appreciate the honest assessments, and the restraint applied to recommending treatment for when it was actually necessary. We'll never go anywhere else.

Reynolds boasts an exceptional staff. Four years back, our family was recommended to their office. Our journey began with treatment for my daughter, then my son, and now myself. I'm delighted with the process and the staff's consistently kind demeanor and thorough explanations.
